## **Clinical Management Opportunity Thompson, Manitoba**

As the "Hub of the North", the city of Thompson serves as the regional trade and service centre of Northern Manitoba. While the historical economic growth for Thompson

has been rooted in mining, Thompson is now considered to be the regional centre for health, education, government, transportation and retail services in Northern Manitoba. Since 2005, several major investments, new developments and businesses have been attracted to the community reinforcing the city's projected future economic growth. Nearby provincial parks boast of the highest waterfalls and some of the best hiking trails in the

province spanning over rugged boreal forest, inviting landscapes, beautiful lakes and numerous islands and campgrounds.
