**Peer Consultation (formal and informal collaboration with other members of the health care team)**

,  
**Self-Structured Learning (reading articles, journals, videos and other self-directed learning)**

---

Page 6: REFLECTIVE PRACTICE REQUIREMENT: PART 2

**Q10**

Please describe the way(s) in which you met your educational goals:

Mental Health Promotion & Community Development

I read peer-reviewed and journal articles, daily news items related to COVID-19 and mental health and discussed experiences with colleagues.

---

**Q11**

How did you know if you met your educational goals; e.g. how did it change your day-to-day practice as a result? Or, how did it enhance your competency you identified previously? Please feel free to use anonymous examples from practice.

Mental Health Promotion & Community Development

**This work I engaged in definitely raised my awareness of the impact of COVID-19 and mental health issues. I now incorporate these questions into my interview and assessment process and ask clients how they have been affected by COVID-19. I assess issues such as: coping mechanisms, resiliency, financial and social supports and vocational/employment issues. This has helped me to broaden my knowledge surrounding the impact of COVID-19 on mental health issues and enhanced my competencies in the interview process by adding another set of questions to assess my client's mental health status.**

---

Page 7

**Q12**

Yes

Was your educational goal met?

---

Page 8

**Q13**

If your educational goal was met, please describe the ways in which you plan to implement this in your practice as a RPN:

Mental Health Promotion & Community Development

**I already have implemented this in my practice by making it part of my assessment and interview process. I now ask these questions during each interview to assess the potential impacts of the pandemic on mental health issues.**

---

Page 9

**Q14**

Respondent skipped this question

If your goal was not met, or you recognize that your require further education to meet this goal, please describe the ways you plan to meet this in the coming year:

---

Page 10: Standards Of Psychiatric Nursing Practice

**Q15**

Choose one of the following Standards you met within the past year:

**Standard 3: Professional Responsibility and Accountability: uses technology, electronic communication and social media responsibly and professionally.**

---

Page 11

**Q16**

Using the standard you selected, describe how you met this in your practice as an RPN:

Standard 3: Professional Responsibility and Accountability: uses technology, electronic communication and social media responsibly and professionally.

**I have been monitoring my social media accounts (Facebook and Instagram) for inappropriate posts that might bring my own practice and that of the profession into disrepute. I watched the CRPNM jurisprudence module on Social Media and now take some time to think about what I am posting online. I think about how it might affect my own practice in my workplace, my status as a RPN and my own personal life.**

---
